2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement
<p>Vision Statement: San Joaquin High School's vision is to encourage, guide, and support each student to rise to their highest potential in 21st Century skills so that they may be effective communicators, innovators, and participants in the global economy.</p> <p>Mission Statement: San Joaquin High School's mission is to ensure each student graduates with a high school diploma and is ready to enter college and/or a career technical school.</p>

2024-25 School Description and Mission Statement

San Joaquin High School (SJHS), a continuation high school, is housed at the McFarland Learning Center campus. SJHS is part of the McFarland Unified School District with a student population of approximately 3,600. McFarland Unified School District is located in the small, rural, and predominantly agricultural community of McFarland California, population of approximately 15,500 according to the estimated 2019 U.S. Census Bureau data. McFarland is located in the southern part of the San Joaquin Valley, about thirty miles north of Bakersfield, adjacent to State Highway 99. The main industry of the area is agriculture. Our role at SJHS is three-fold:

1. To prepare students academically, emotionally, and behaviorally to return to McFarland High School or to stay on track to meet the requirement for earning a high school diploma
2. To promote articulation of curriculum and teaching of “same skills courses” that match those at McFarland High School
3. To assist students in attaining sufficient credits and appropriate instruction to enable them to earn a high school diploma

SJHS serves students who are at risk of not graduating from high school because they are unable or unwilling to attend McFarland High School, the McFarland Unified School District comprehensive high school. Various reasons for choosing SJHS include personal hardships, pregnancy/childcare needs, special needs for work scheduling, and a positive alternative to the larger high school setting. The SJHS student population, with both voluntary and involuntary enrollment, is considered “transitional” in that student enrollment is usually short term, limited to or usually one or two semesters, to enable the student to either recover missing credits in order to graduate with his/her original class, overcome personal crisis, finish up a work season, or to obtain one-on-one assistance. However, a considerable number of students have graduated from this school.

An important factor in preparing students for return to MHS is that of being emotionally prepared. Some students attend because of behavior management challenges. The staff takes great pride in cultivating school culture and promoting caring attitudes. We are able to assist our students in finding appropriate programs and services to meet their needs, assist them in developing appropriate behaviors, and work to provide individualized assistance in overcoming difficulties (i.e. – counseling referrals, career counseling, and individual education planning) due to a higher teacher-student ratio than the local traditional high school. Students with active IEPs receive additional support from the appropriate district specialists in special education and speech pathology in order to reach their goals and objectives. For students on probation, there is a continued collaboration between probation officers and our instructors.

A team of classified employees supports our certificated staff. District technology teams, psychologists, nurses, a social worker, and other support staff are available on an as-needed basis. For the 2024-2025 school year, we have partnered with Kern Tutor and have on our campus 2 tutors to support students academically. We also have a Student Intervention Mediator as well as an AmeriCorps Mentor. The curriculum of SJHS mirrors that of the comprehensive high school in that we follow the same course outlines in order to meet state standards across the curriculum. We routinely confer with MHS counselors and staff to be sure we are providing for the needs of our students to enable them to return to MHS or to meet graduation course requirements. We consider the attainment of proficiency level in the basic skills enhanced by technological fluency to be beneficial to successful employment as well as further education and training. SJHS staff members are well-versed in technology and are striving to integrate its use throughout the curriculum in all our courses. The district's continuing support of technology has provided 1:1 personal Chrome Book computers to assist our students in mastering skills and research and streamlining their work processes. Each student is also provided with web-based computer instruction, and access to wifi if needed, available outside of regularly scheduled school hours.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Historically, McFarland Unified Schools District has adopted a seven year cycle for curriculum framework and standards development for the adoption of instructional materials and texts. The courses of study, frameworks, standards, and curriculum are in alignment with that of the district's comprehensive high school. San Joaquin High School meets Williams Act compliance requirements..

School Facility Conditions and Planned Improvements

San Joaquin High School facilities are maintained in a manner that assures safety, cleanliness, and functionality. To assist in this effort, the MUSD Maintenance and Operations Safety Department conducts annual inspections as determined pursuant to a Facility Inspection Tool (FIT) developed and approved by the State of California, Office of Public School Construction (OPSC). The FIT evaluates a school facilities' good repair status with ratings of "good", "fair", or "poor". The results of this survey are available at the school office or at the MUSD maintenance department. In addition to the Williams Lawsuit settlement inspection, the site is inspected annually by the Kern County Fire Department. District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. Large ongoing maintenance projects are scheduled during winter or summer breaks. Within the last two years, the entire exterior of the site was repainted and the carpets replaced in the main building. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. A pest/vermin reporting system is in place and issues are addressed as needed. San Joaquin High School consists of six buildings.

Built in 1987, the main permanent building houses 6 classrooms, 3 offices, two sets of restrooms, and miscellaneous storage areas. Four adjacent portable classrooms and an additional prefab 2-room classroom with restroom facilities are located on site. The two computer labs have been replaced by 1:1 computers. Every student is assigned a Chrome Book which they are encouraged to bring to school daily. The school also maintains two computer carts storing 25 computers each. All students have access to WiFi throughout the facility. A small soccer field and public library are within the same city block. In addition to SJHS, McFarland Independent School (independent study) and an adult education program are also housed at McFarland Learning Center site. A custodian cleans classrooms and grounds daily. The buildings are secured and alarmed at the end of each day. An angle-iron security fence secures student area during school and assists in securing entry to the site when school is not in session. Multiple security cameras provides monitoring and a bell system provides an additional means of communication.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. 2023-24 Career Technical Education Programs

Students are provided with Career Technical Education Information through field trips, career counseling and elective courses. Opportunities to participate in and complete CTE programs are typically provided at the local traditional high school, however, we have provided CTE courses through Edgenuity.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

2024-25 Opportunities for Parental Involvement
<p>San Joaquin High School strives to create an environment of increased parental involvement. Our administrative team and the faculty and staff actively practice an "open door" policy, believing that the school's parents and community members are an integral part of our success. Opportunities for involvement include participation in budget development (site and district) through LCAP/LCFF meetings held throughout the year starting with the School Site Council (SSC) ELAC (English Learner Advisory Committee), DELAC (District English Learner Advisory Committee), and development of the Single Plan for Student Achievement (SPSA). At least one member of ELAC is elected to serve at the district level, DELAC. Other opportunities for parental involvement include LCAP School Site Council, Back-To-School Night, Parent/Teacher Conferences, Career Day, field trip parent supervisors, and school/community events to mark significant milestones such as community holiday festivities (representing the school in parades or through community service events) and graduation ceremonies. Parents are also encouraged to enroll in adult education courses held during the evenings at the site. Courses specifically supporting parental involvement include English language acquisition and digital literacy courses specifically designed to support the academic achievement of their students. Parents are encouraged to be a part of the team monitoring student achievement by accessing school and student information via the Aeries Parent Portal, Edgenuity Parent Access, and through a phone app, ParentSquare. Through the Aeries Parent Portal, a parent can monitor his/her student's academic achievement, attendance, and behavior, as documented daily at the school.</p>

2024-25 School Safety Plan

San Joaquin High School and the McFarland Unified School District have comprehensive emergency and safety plans in place using guidance outlined by California Education Code Sections 32280-32289. The district meets regularly with site administrators to coordinate school and district procedures and policies so that efforts remain viable and constant. A site and district representative attends annual training at the county level in order to stay apprised of updates from the county, state, or national level. San Joaquin's Safe School Plan contains policies and procedures to handle school site emergencies. The school uses the SIMS/NIMS (State and National Incident Management System) protocols. Various roles with specific assigned

responsibilities for dealing with various types of emergencies are outlined in the plan. The roles include incident commander, public information officer, scribe, logistics officer, planning and intelligence officer, and safety officer. The plan also contains policies regarding student discipline, child abuse, and crisis/emergency response. Staff reviews and updates the School Safety Plan at a minimum of two times per calendar year. The safety plan was last updated and board approved July 30, 2024. The 2023-2024 safety plan was reviewed, discussed and updates recommended for 2024-2025 by the School Site Council designated safety committee on 10/1/2024, It is pending board approval. An updated phone tree of all staff members has been revised and distributed. It serves as a portion of the School Safety Plan. Administration conducts safety drills throughout the year so that staff and students are aware of safety protocols and procedures.

Fiscal Year 2023-24 Types of Services Funded

Special Education Services - Special education services, guided by Individualized Educational Plans, are provided to Special Education students through a credentialed Resource Teacher. The specially designed instruction is provided at no cost to parents to meet the unique needs of students with disabilities. In addition to core subject assistance, plans are created to assist students with transition from high school to employment and quality adult life.

English Language Development - English learners are enrolled daily in an ELD class designed to assist students in overcoming language barriers. In addition, all teachers have been trained in ELPD strategies constructed to ensure that English learners can access core curriculum and that English learners are able to participate meaningfully and equally in all educational programs/services.

Health and Mental Health Services - A district nurse, a district nurse, a district-based school psychologist, and a district social worker are available to provide services when needed. The district is contracted with a provider to hold 8-week group substance abuse counseling sessions throughout the year. Services are also provided to foster, homeless, migrant, low socio-economic, pregnant/parenting, and other at-risk groups.

Professional Development

McFarland Unified School District offers many varied staff development opportunities throughout the year. Staff receives training designed for serving at-risk students in an alternative education through California Continuation Education Association conference workshops. MUSD also provides professional development in Multi Tiered Systems of Support to all certificated staff. Professional development is enhanced through dialog and collaboration with other continuation/alternative education professionals. Local and county staff development topics have included Common Core State Standards, English Language Development (EL Rise), Gang Awareness, School Safety as well as Safety Plans, WASC Goals and Action Plans, Digital and Technology Training, and other related areas. Teachers are supported through in-class coaching, teacher-principal meetings, and weekly teacher-staff meetings to review student progress and data reporting. All staff members alternate annually in attending various alternative-education-specific conferences and workshops each year through the California Continuation Education Association or the California Consortium for Independent Studies. Teachers also receive a one-day Supporting Common Core Instructional Strategies and Student Behavior workshop through the district.

This table displays the number of school days dedicated to staff development and continuous improvement.
