## Suspensions and Expulsions

Data reported are the number of suspensions and expulsions (i.e., the total number of incidents that result in a suspension or expulsion). The rate of suspensions and expulsions is the total number of
incidents divided by the school's total enrollment as reported by CBEDS for the given year. In unified school districts, a comparison between a particular type of school (elementary, middle, high) and the district average may be misleading. Schools have the option of comparing their data with the district-wide average for the same type of school.

## School Facilities

Safety, cleanliness, and adequacy of school facilities, including any needed maintenance to ensure good repair. Description of the condition and cleanliness of the school grounds, buildings, and restrooms.
We are a K - 5 elementary school with a 30 station multi-media computer lab and 6 student computers in every classroom. We have a school library with a full time Library Media Specialist. School facilities are in good condition.

## III. Academic Data

Standardized Testing and Reporting (STAR): Through the California Standardized Testing and Reporting (STAR) program, students in grades 2-11 are tested annually. Currently, the STAR program includes California Standards Tests (CST) and a norm-referenced test (NRT). The CST tests English-language arts and mathematics in grades 2-11, science in grades 5. The NRT tests reading, language, mathematics and spelling in grade 3.

California Standards Tests (CST): The California Standards Tests (CST) show how well students are doing in relation to the state content standards. Student scores are reported as performance levels. The five performance levels are Advanced (exceeds state standards), Proficient (meets state standards), Basic (approaching state standards), Below Basic (below state standards), and Far Below Basic (well below state standards). Students scoring at the Proficient or Advanced level meet state standards in that content area. Students scoring at the Proficient or Advanced level meet state standards in that content area.

## CST - All Students

Data reported are the percent of students achieving at the Proficient or Advanced level (meeting or exceeding the state standards).

## Norm-Referenced Test (NRT)

Reading and mathematics results from the California Achievement Test, Sixth Edition (CAT-6), are reported for each grade level as the percent of tested students scoring at or above the 50th percentile (the national average). School results are compared to results at the district and state levels. The CAT-6 was adopted in 2003; therefore, no data are reported for 2002. Detailed information regarding results for each grade level can be found at the California Department of Education Web site at http://star.cde.ca.gov/. Note: To protect student privacy, scores are not shown when the number of students tested is 10 or less.

Academic Performance Index (API): The Academic Performance Index (API) is a score on a scale of 200 to 1000 that annually measures the academic performance and progress of individual schools in California. On an interim basis, the state has set 800 as the API score that schools should strive to meet.

Growth Targets: The annual growth target for a school is 5 percent of the distance between its Base API and 800. The growth target for a school at or above 800 is to remain at or above 800. Actual growth is the number of API points a school gained between its base and growth years.

Subgroup APIs and Targets: In addition to a schoolwide API, schools also receive API scores for each numerically significant subgroup in the school (i.e., racial/ethnic subgroups and socio-economically disadvantaged students). Growth targets, equal to 80 percent of the school's target, are also set for each of the subgroups.

Percent Tested: In order to meet NCLB requirements at least 95 percent of students must be tested.

## Federal Intervention Programs

Schools receiving Title I funding enter federal Program Improvement ( PI ) if they do not make Adequate Yearly Progress (AYP) for two consecutive years. After entering PI, schools advance to the next level of intervention with each additional year that they do not make AYP. Information about PI, including a list of all PI schools, can be found at the California Department of Education Web site at http://www.cde.ca.gov/ta/ac/ay/ or by speaking with the school principal.

## Adequate Yearly Progress (AYP)

The federal No Child Left Behind Act (NCLB) requires that all students perform at or above the proficient level on the state's standards-based assessments by 2014. In order to achieve this goal and meet annual performance objectives, districts and schools must improve each year according to set requirements. A "Yes" in the following table displaying Overall AYP Status indicated that AYP was met for all students and
all subgroups, or that exception criteria were met, or that an appeal of the school or district's AYP status was approved. Additional data by subgroup show whether all groups of students in the school and district made the annual measurable objectives for the percent proficient or above and the participation rate required under AYP. Detailed information about AYP can be found at the California Department of Education Web site at http://www.cde.ca.gov/ta/ac/ay/ or by speaking with the school principal.

## Class Size Reduction Participation

California's K-3 Class Size Reduction program began in 1996 for children in kindergarten and grades one through three. Funding is provided to participating school districts to decrease the size of K-3 classes to 20 or fewer students per certificated teacher. Data reported are the percent of students in each grade level in the school that are in a class size reduction classroom.

## VI. Teacher and Staff Information

## Core Academic Courses Not Taught by NCLB Compliant Teachers

The No Child Left Behind Act (NCLB) requires that all teachers teaching in core academic subjects are to be "highly qualified" not later than the end of the 2005-06 school year. In general, NCLB requires that each teacher must have: (1) a bachelor's degree, (2) a state credential or an Intern Certificate/Credential for no more than three years, and (3) demonstrated subject matter competence for each core subject to be taught by the teacher. More information on teacher qualifications required under NCLB can be found at the California Department of Education's Web site at http://www.cde.ca.gov/nclb/sr/tq/.

For a school, the data reported are the percent of a school's classes in core content areas not taught by NCLB compliant teachers. For a district, the data reported are the percent of all classes in core content areas not taught by NCLB compliant teachers in all schools in the district, in high-poverty schools in the district, and in low-poverty schools in the district.

|  | School | District |
| :--- | :---: | :---: |

| Low-Poverty Schools in <br> District | --- | 100.0 |

## Teacher Credentials

Data reported are the number of teachers (full-time and part-time) as reported by CBEDS. Each teacher is counted as "1". If a teacher works at two schools, he/she is only counted at one school. Data are not available for teachers with a full credential and teaching outside his/her subject area.

## Substitute Teachers

The school utilizes substitute teachers provided by our district office, as needed.

## Counselors and Other Support Staff

Data reported are in units of full-time equivalents (FTE). One FTE is defined as a staff person who is working 100 percent (i.e., full time). Two staff persons who each work 50 percent of full time also equal one FTE.

## Academic Counselors

Data reported are in units of full-time equivalents (FTE). One FTE is defined as a staff person who is working 100 percent (i.e., full time). Two staff persons who each work 50 percent of full time also equal one FTE. The ratio of students per academic counselor is defined as enrollment as reported by CBEDS divided by the full-time-equivalent academic counselors.

Textbooks are adopted in accordance with the state's timeframe and standards. Other instructional materials are either teacher developed or purchased alone with the textbook adoption.

## Availability of Sufficient Standards-Aligned Textbooks and Other Instructional Materials

The availability of sufficient standards-aligned textbooks and other instructional materials for each pupil, including English learners, that are consistent with the content and cycles of the curriculum frameworks adopted by the State Board of Education in the core curriculum areas of reading/language arts, mathematics, science, and history-social science; foreign language and health; and science laboratory equipment for grades 9 to 12, inclusive, as appropriate.
Each student has a book for Reading, Math, Social Science, Science and for English Language Development.
